

Applied Equine Podiatry

What It is-

- Specialist hoof care consultancy service
- A science based on TRUE foot function
- AEP considers the whole health of the horse
- Utilises the horses own healing capabilities
- Is PROactive NOT REactive in approach
- Returns health to INTERNAL structures of the foot
- Balances to the Internal Arch Apparatus
- Uses HPT (High Performance Trim) method

IT IS NOT-

- Supportive of harmful trim practices
- Supportive of harmful products/theories

What it's for-

- Keeping horses sounder-longer
- Improving performance
- Preventing lameness/infection
- Treating the lame/diseased horse
- Navicular and laminitis
- Metabolic/IR/Cushing's horses
- Proactive, holistic horse/hoof care
- ALL conscientious owners
- ALL horses/ponies whether shod or not
- High performance barefoot

Horse exhibiting typical signs of imbalance, infection & Deformed Hoof Capsule before AEP...

And after-(only 4 weeks later!) Better balance/performance - sound reasoning/sound horses!
